

# 3M™ Steri-Strip™ Blend Tone Skin Closures

*Non-reinforced, microporous, light-colored skin closures.*

## Features and benefits

- Microporous material is breathable
- Hypoallergenic, pressure-sensitive adhesive
- Light color allows natural skin tone to show through

## Suggested applications

- Steri-Strip blend tone skin closures can be used when there is a need for a non-reinforced, gentle closure. It's barely noticeable and allows natural skin tone to show through.
